

The 4th International Conference on Healthcare System Preparedness and Response to Emergencies & Disasters

10-13 January 2016 | Hilton Tel Aviv Hotel, Israel

PRELIMINARY SCIENTIFIC PROGRAM

January 10th
January 11th
January 12th
January 13th

PRELIMINARY SCIENTIFIC PROGRAM

Sunday - January 10th, 2016						
18:00-20:00 Registration Desk Open						
19:30 Cocktail Reception at the Conference Venue						

Monday - January 11th, 2016

07:30-18:00 Registration desk Open						
08:45-09:00 Plenary Session Moderated by Prof. Shimon Reiser , IPRED IV Chairman of the Scientific Committee Prof. Arnon Afek , Associate Director General (acting) of the Ministry of Health Col. Dr. Eyal Furman , IPRED IV Chairman IDF Surgeon General, Brig. Gen. Dr. David Dagan						
09:00-09:30 Commander of Home Front Command - Maj. Gen. Yoel Strick - Striving for a Resilient Society - The Ultimate Goal						
09:30-10:00 Rear Admiral (RADM) Dr. Boris D. Lushniak - Partnerships in Emergency Response - The Path from Inception to Implementation of the Medical Units						
10:00-10:30 Dr. Ian Norton - International Medical Teams: Have the Ebola and Nepal responses changed anything?						
10:30-11:00 Coffee Break						
	Hall 1	Hall 2	Hall 3	Hall 4: Pomegranate	Hall 5: Olive/ Palm/ Sycamore	Hall 6: King Solomon AB
	Emergency Medicine in Mass Gatherings Chairpersons: Rafael Strugo & Jetri Regmi	Controversies in Emergency and Disaster Management Chairpersons: Itamar Ashkenazi & Michael Fogel	Disease outbreaks and epidemics, prevention and control Chairpersons: Meir Oren & Luca Rosi	Advanced Research in Disaster Management Chairpersons: Ark Eisenkraft & Brigitte Serreault	Ethics in emergencies and disasters Chairpersons: Yoram Blacher & Cham Dallas	The Role of Nurses in Disaster Management Chairpersons: Gila Hyams & Chad Priest
	Gennady Kipov, Russia - Experience of disaster medicine preparedness for mass gathering events Leo Latsch, Germany - Medical preparation for the Ironman 2015 in Frankfurt Leo Latsch, Germany - Medical preparation for the J.P Morgan Corporate Challenge Serie 2015 in Frankfurt Alessandra Rossodivla, Italy - EXPO 2015: Hospital Preparedness for Emergency and Bioterrorism RESPONSE - The Italian Experience Naama Constantin, Israel - Medical Security of mass gatherings: recommendation of the Israeli National Committee Raed Arafat, Romania - Dealing with a mass casualty incident involving over 180 burnt patients including 68 critical patients in a Bucharest club fire	Adam Aluisio, U.S. - The Regional Anesthesia for Painful Injuries after Disasters (RAPID) Study: a randomized controlled trial protocol Pinchas Halpern, Israel - Intranasal Ketamine for Acute Traumatic Pain: A Prospective, Randomized Clinical Trial of Efficacy and Safety Aviel Hirschhorn, Israel - Paradigm shift in victim identification - from forensic odontology to craniofacial forensics Mauricio Lynn, U.S. - Breaking the great myths of mass casualty management Ronit Krupnik, Israel - The influence of new technology on the next financial, political or social crisis Gary Mann, Canada - Cashing in on Pay for Results	Tal Brosh-Nissimov, Israel - Preparing for Imported Ebola Cases in Israel, 2014-15 Jack Hermann, U.S. - Building Resilient and Sustainable Health Systems to Respond to Global Infectious Disease Outbreaks Shuangou Li, China - An Analysis on the Epidemiological Characteristics and Causes of First-aid Trauma in Urumqi, Xinjiang Pavel Castulik, Czech Republic - Trial experience of the Czech EMS with transportation of an infection suspect in the Portable Isolation Units Lion Poles, Israel - From SARS to EBOLA - The evolution of Temporary High Level Isolation Units in Israel	Clive Goodchild, UK - EDEN - End User Driven Demonstration for CBRNe Brigitte Serreault, France - EDEN STORE AND ITS TOT Jürgen Schreiber, Germany - An innovative tool for initial medical assessments in CBRN-MCI - the PRIOR-CBRN system Clive Goodchild, UK - Generic Ground Station Catherine Bertrand, France - Lessons learnt from EU projects to improve civilian FR's protection against CBRNe threats Bruna Adini, Israel - Expecting the unexpected and know how to respond Multidisciplinary international collaboration DARWIN project	Ofer Merin, Israel - Treating terrorists and victims: a moral dilemma Eli Yaffe, Israel - Priorities in preliminary, on-site triage and assessment in multiple casualty situations Moshe Z. Abramowitz, Israel - What can we learn from the resilience and post traumatic growth of Holocaust survivors? Nehaniel Laor, Israel - Changes in Bio-Ethics from the Nuremberg Trials until today Nofar Wolfer, Israel - Hospital Emergency Teams	Joris Klein, U.S. - The Role of Nurses in Preparedness for mass casualty event in the United States Karen Hamrad, Australia - Understanding the lived experience of nursing in the emergency department (ED) during a disaster Gila Hyams, Israel - Trauma Nurse Coordinators Role in MCS - Learning from the past, planning for the future
12:15-12:30 Change Halls Break						
	Hall 1	Hall 2	Hall 3	Hall 4: Pomegranate	Hall 5: Olive/ Palm/ Sycamore	Hall 6: King Solomon AB
	Lessons learned from recent emergencies and disasters Chairpersons: Kobi Peleg & Michel Debacter	Managing Blood Resources During Emergencies Chairpersons: Elat Dagan & Richard Gonzales	Medical education & training Chairpersons: Leonid Edelstein & Leonard Cole	Epidemiology & public health Chairpersons: Ran Balcer & Alessandra Rossodivla	Holistic Approach to Emergency Preparedness Chairpersons: Beila Azaria & Dagan Schwartz	Emergencies and disasters nursing Chairpersons: Liora Ulitz & Karen Hamrad
	Michael Fogel, U.S. - Had The Time Square Bomb Exploded: How Would Your Emergency Room Have Responded to a Surge of Pediatric Victims? Michael L. Alkan, Israel - ISRAAID Medical Mission to Nepal, Responding to the Earthquake Yinying Lu, China - Chinese military medical team contribute to clinical management of Ebola virus disease in Sierra Leone Ashika Jain, U.S. - Chief Complaints Pre and Post 2015 Earthquake in Rural Nepal Arthur Cooper, U.S. - Pediatrics Disaster Ethics	Ruth Silvester, U.S. - Maintaining a Safe & Adequate US Blood Supply in an Emergency Carmel Bell, U.S. - The US Military Blood Support in Response to National Disasters Richard Gonzales, U.S. - Blood Medical Device Industry Considerations in Supporting Responses to National Disasters Elat Dagan, Israel - The Israeli National Blood Response Program Avraham Yizhak, Israel - "My brother Keeper" plan and the IDF RDCR protocol Mark Yazer, U.S. - Whole blood-What's Old is New Again	Deborah Kim, U.S. - Regulatory vs. Accreditation Challenges: Proposed CMS Regulations for Healthcare Emergency Preparedness Deborah Persell, U.S. - Inter-Professional Education for Disaster Preparedness Yung-Fang Chen, UK - An Evaluation of the Emergency Response Exercise Programme in Taiwan Diana Vinitzky Herzog, Israel - Exercising Hospital Evacuation in Israel Seema Biswas, Israel - Disaster and Conflict Medicine for Medical Students	Kheham Hussein, Israel - Preparing for treating Ebola patients in a dedicated Hospital Shulin Li, China - The Epidemiological Characteristics and Disease Spectrum of the patients with Prehospital Medical Emergency System in Urumqi, Xinjiang Sohi Pohiawala, Singapore - Designing the Emergency Department for improving infection control Nadia Baranuch, U.S. - Physician Attitude towards Mandatory Ebola Training: not all agree Basheer Halhal, Israel - PERTUSSIS epidemic amongst soldiers during basic training- the need for updated protocols	David Fuchs, Israel - Disaster preparedness in small district hospital Gal Horowitz, Israel - Paramedics' attitudes regarding expanding the authority to determine death by a paramedic No Hadari, Israel - MCH-Media=? Hong Chen, China - The practice and enlightenment of Southwest Hospital's participation in Lushan earthquake medical rescue Amran Jabur, Israel - A Very Challenging Quest: Breaking Bad News by the Nurses Staff Xinhu Li, China - Investigation and Analysis of Disaster Cognition and Family Disaster Preparedness of General Practitioners and Community Nurses in XPC	

13:45-14:45 Lunch						
	Hall 1	Hall 3	Hall 4: Pomegranate	Hall 5: Olive/ Palm/ Sycamore	Hall 6: King Solomon AB	
	Emergency management & Sheltering of animals in disasters Chairpersons: Patricia Andrade & Robin Chadwin	Multi-Professional Capacity Building Chairpersons: Boaz Tadmor & Jorie Klein	International humanitarian action Chairpersons: Bruna Adini & Erin Downey	Emerging CBRNe threats Chairpersons: Kobi Altsmon & Dan Hanfling	Trauma Management Chairpersons: Osnat Lev-Zion & Raphael Barishansky	
	It's not just about the animals: Table top exercise - an interactive session: Patricia Andrade, Robin Chadwin, U.S. - Community preparedness and public health considerations: Planning for emergency response to include animal Introduction to Emergency Animal Sheltering (EAS): Role of veterinarians and non-veterinary volunteers; needs of animals and staff Emergency Shelter Design and Animal Transport/Tracking: Estimating animal populations, shelter layout, biosecurity, triage Exercise - small group discussions to provide solutions to dilemmas	Stephen Sussman, U.S. - Reaching beyond standard assessment: The role of global self esteem in first responder training David Palmer, Israel - The Role of the Spokesperson in Disaster Preparation and Management Chad Priest, U.S. - An Update on Federal Training Opportunities for Healthcare Responders in the U.S. Panel Discussion: Liora Ulitz, Mira Wilhelm, Kati, Anna Ofir, Elm Fanslein, Lyda Lanover, Gila Margalit - Nurses as "leaders" of emergency preparedness	Cham Dallas, U.S. - Developing a Nuclear Global Health Workforce Amid the Increasing Threat of a Nuclear Crisis Zevn Mahomed, South Africa - Africa helping Africa Elihan Bar-On, Israel - Field Hospital Versatility - Maintaining Capabilities in Diverse Operational Scenarios Tarif Bader, Israel - Extending a Helping Hand - Lessons Learned from Recent Israeli Defense Forces Humanitarian Missions Kumaran Rasesapan, Singapore - Considerations in Humanitarian Medical Relief Work in the High Altitude Himalayan Villages	Arkadiusz Trzes, Poland - CBRN-related Mass Casualty Incidents - coordination of activities of the Emergency Medical Services and the National Firefighting and Rescue System: Propositions of system-based solutions Gad Pithasi, Israel - Consequence Analysis for Toxic, Explosive and Flammable Gas Spills: A Case Study: Compressed Natural Gas (CNG) Storage Tovochi Sawano, Japan - Health of decontamination workers in Fukushima: underlying disease observable in presentation of stroke Vasily Afanasiev, Russia - Cytotoxins are an important supplement in treatment of mass casual ties during toxicological disasters S.M. Becker, U.S. - Challenges to Recovery after a Radiological or Nuclear Incident: Early Lessons from Fukushima Dai-ichi	Gilbert Sabbah, Israel - The Soroka Medical Center challenges during the July 2014 Operation Protective Edge - Preparedness and management in a hospital under fire Itzhak Siev, Israel - The Role of Rehabilitation in a Military Conflict Avi Benny, Israel - Between 2 conflicts - change in battlefield disaster from Second Lebanon War to Operation Protective Edge. Wayne Yan, Singapore - Lessons from the 2015 Nepal Earthquake: Our experience as Trauma Injuries by US Emergency Medical Services Miklosz Bala, Israel - Intentional Running-Over Attacks: A Summary of the Recent Jerusalem Experience Michael Rozenfeld, Israel - Space settings of terror explosions: physical vs. contextual	

16:15-16:45 Coffee break						
	Hall 1	Hall 3	Hall 4: Pomegranate	Hall 5: Olive/ Palm/ Sycamore	Hall 6: King Solomon AB	
	Promoting Emergency Preparedness by International Organizations Chairpersons: Eli Yaffe & Dorit Nitzan Kaluski	Social Networks and Volunteering Chairpersons: Mooli Lahad & Christopher Kramer	Logistic management of emergencies and disasters Chairpersons: Ran Edelstein & Angelo Agostini	Military and civilian collaboration Chairpersons: Ofer Merin & David Wilnot	Models of Healthcare Emergency Planning Chairpersons: Avishay Goldberg & Mauricio Lynn	
	Dorit Nitzan Kaluski, WHO - WHO Emergency Response in Ukraine Barbara Rozzoli, ICRC - Restoring Family Links in times of emergency by the International Red Cross and Red Crescent Movement Saeda Al Barawi, ICRC - ICRC pre-operative hospital physiotherapy project: preparing also for humanitarian emergencies Frederik Slem, Norway - Ambulance services operating in situations of risk: best practice of twelve National Societies Johannes S. Schad, Germany - From Ebola Emergency to Health System restoration: Severe Infections Temporary Treatment Unit Patricia Kormoss, WHO - Mobile Emergency Primary Care Units - W.H.O. Experience	Alan Kirschenbaum, Israel - When Plans Fail: Contingency Plans Based on Social Networks Patrick Drews & Jana Eiser-Mauthner, Germany - Interactive Lecture: Spontaneous Volunteer Management Programs for Emergency Management - A European perspective Doris Havlik, Austria - Crowd-tasking in crisis situations Eli Weissbart, Israel - Successfully operating unorganized volunteers during crisis Daniel Hahn, U.S. - Public-Private Partnerships: A case study and best practices	Donna Thomson, Canada, Crit'Call Ontario - A provincial solution to healthcare planning and optimization (on a daily basis and in emergencies and disaster) Joram Rubinstein, Israel - Resolving the challenges and dilemmas in securing hospitals Michael Fogel, U.S. - Creating Disaster Recovery from Hurricane Sandy and the NYC Pediatric Disaster Coalition (PDC) Nancy Ashkenazi, Israel - TREATS Project: Increasing resilience of EU hospitals as critical infrastructure by improving their protection capability and security awareness against terrorist attacks David Siegel, U.S. - Gaps in Drug Dosing for Obese Children and Adults: A Systematic Review of the Medical Countermeasures in the Strategic National Stockpile	Gennady Kipov, Russia - Civil Military Collaboration in National Disaster Medicine Service Gayatri Nadarajan, Singapore - Mosaic Civilian-Military Disaster Medical Response Team: A Unique Singapore Experience David Wilnot, U.S. - Tiered Response to CBRN Incidents Deborah Kim, U.S. - Destruction of the Utah Chemical Weapons Stockpile and the development of the CSEPP Program Salman Zarka, Israel - Hospital Operation in Emergencies	Chad Priest, U.S. - A Theoretical Framework for Healthcare Facility Emergency Management Program Development Eli Rohm, Israel - Do we have an emergency? Oleg Mazurenko, Ukraine - A simulation modeling for International Health response after Natural Disasters Moshe Farchi, Israel - The SIX C's Model Psychological First Aid guidelines for NON professionals Dan Hanfling, U.S. - Emergency Mass Critical Care - An Update	

19:30 "Summer for Winter" Special Israeli Style Dinner Event						
---------------------------------------------------------------------	--	--	--	--	--	--

Tuesday - January 12th, 2016

07:30-18:00 Registration desk open						
08:30-09:00 Plenary Session Moderated by Prof. Shimon Reiser , IPRED IV Chairman of the Scientific Committee Mr. Itay Engel - ISIS as the global threat						
09:00-09:30 Dr. Thomas Inglesby - Preparing for Bioterrorism and Public Health Emergencies						
Greetings: Minister of Health MP Rabbi Yaacov Litsman Prof. Zou Li, China - Chief Representative of SAFE/CAIEP in Israel Prof. Virginia Murray - The Sendai Framework on Disaster Risk Reduction: what does it mean for disaster medicine?						
10:00-10:30 Coffee Break						
	Hall 1	Hall 2	Hall 3	Hall 4: Pomegranate	Hall 5: Olive/ Palm/ Sycamore	Hall 6: King Solomon AB
	Simulation Tools in Triage Chairpersons: Stridberg Berg & Steven Schmitz	Expert Session - Novel technologies in emergency and disaster medicine Chairpersons: David Dagan & Christopher Lamb	Critical Infrastructure Resilience: Threats, Vulnerabilities, Cascading Effects & Interdependencies Chairpersons: Avi Israeli & Jalal Mapar	Managing acute stress reactions Chairpersons: Nathaniel Laor & Joan Hunter	Quality Assurance of Disaster Preparedness Chairpersons: Dorit Manova & Gary Mann	Managing the Ebola Crisis Chairpersons: Elihan Bar-On & Rene Gottschalk
	Tom Schmitz, Belgium - Measuring in-hospital over- and undertriage using simulation software in emergency physician residents Tom Schmitz, Belgium - Measuring in-hospital over- and undertriage using simulation software in emergency physician residents Ritzy Berg, U.S. - SurgeTrain Online Learning Platform Improves Hospital Clinical Surge Disaster Response Interactive presentation of a training tool to promote triage capabilities in the emergency department during a surge event	Joseph Martin, U.S. - "The Changing Nature of Triage: A Review of the Evolution of Triage" Narayan Iyer, U.S. - BARDA and MedWound response to Romania Fire incident Elin Glassberg, Israel - Technology as a life-saving tool - from the battlefield to the pre-hospital setting Panel Discussion - My prediction of the technology of tomorrow	Yacov Haimas, U.S. - Risk Modeling and Analysis of Cyber-Physical Complex and Resilient Interdependent Systems of Systems J. Michael Barrett, U.S. - Ensuring resilience by applying Total Security Management (TSM) principles to complex systems Tim McPherson, U.S. - Infrastructure System Assessment Rachael Pithch-Loeb, U.S. - A Balancing Act: Integrating the Resilience of Sandy and Compensating Capitals Josh Wandler, Israel - Bottom-up Preparedness	David Abramson, U.S. - Merging Disasters: A cross-cohort comparison of mental health after large-scale natural and technological disasters Zhong Guoqing, China - Research traumatic event memory content changes after a trauma Joan Hunter, U.S. - The National Guard Bureau Psychological Health Program: Traumatic Event Management Xiaohu Zhang, China - Worries about the future of families associated with the presence of posttraumatic stress disorder in Chinese trauma population Moshe Farchi, Israel - Preliminary test and validate a brief Acute Stress Reaction (ASR) scale Menachem Ben-Ezra, Israel - Psychological Reactions Following the Charlie Hebdo Terror Attack Nir Klein, Israel - Stress Reaction of first responders	Gilbert Sabbah, Israel - Results from the evaluation: The web-based tool "BEPE" in daily work routine Gary Mann, Canada - Real time locating systems in emergencies and disasters Stephen Sussman, U.S. - Firefighter Readiness and the Disaster Cycle: A Holistic Approach Yveth Rosenbecker, Germany - Needs analysis and development planning for fire services: How much fire service does a city need? Asaf Harris, U.S. - Civilian ED usage during conflict analysis of a major Israeli emergency department Menachem Ben-Ezra, Israel - Psychological Reactions Following the Charlie Hebdo Terror Attack Nir Klein, Israel - Stress Reaction of first responders	Richard Klomp, U.S. - Reducing Risk of Improper Deployment During Ebola Response in West Africa Cathryn Kono, U.S. - Ebola Response: Emergency Room Staff Perceptions of Ebola training Huijuan Du, China - Medical Emergency Response by Chinese PL medical teams Raymond F. Swenton, U.S. - Ebola in the U.S., Epicenter: Dallas, Texas Regina Filwanger, Germany - EFO Ebola - Efficiency by Education: A train-the-trainer program to promote hospital preparedness for Ebola Itay Fogel, Israel - Self-Perceived Efficacy of Using Personal Protective Equipment Does Not Predict Objective Performance David Wilnot, U.S. - Lessons Learned from Operation United Assistance

12:00-12:10 Change Halls Break						
	Hall 1	Hall 2	Hall 3	Hall 4: Pomegranate	Hall 5: Olive/ Palm/ Sycamore	Hall 6: King Solomon AB
	Humanity in treating Refugees & migrants Chairpersons: Pinchas Halpern & Itamar Grotto	Emergency Medicine Education Chairpersons: David Siegel & Deborah Persell	Multi-level Exercises: "How-to" Session Chairpersons: Eyal Furman & Francesco Foll	Utilizing Social Media in Emergency Management Chairpersons: Limor Aharonson-Daniel & Steven Becker	Tools & Funds in emergency response Chairpersons: Eran Tal-Or & Raed Arafat	
	Pinchas Halpern, Israel - Provision of Emergency Medical Services to secure medical treatment for Refugees Michael Dor, Israel - Operating a designated clinic for medical treatment of refugees Alexander Lerner, Israel - Humanitarian treatment victims of Syrian civil war in Ziv Medical Center, Zefat, Israel	Katarzyna Dlugosz, Poland - Organization of Emergency Medical Operations in CBRN Incidents: Training program for representatives of government services and medical students Juliana Pohl, Singapore - CODE BLUE RESPONSE TO A BSL3 INCIDENT Leonard Cole, U.S. - The Value of a Course on Terror Medicine	Eyal Furman, Israel - Characteristics of Hospital's drills Dov Smalitz, Brazil - First integrated exercise on disasters management in Sao Paulo - Brazil (Public and Private forces) Zahi Dagan, Israel - MTE Drills and Reality - What we had Learned Lion Poles, Israel - Training systems and the individuals for emergencies - "Orange Flame" Concept and changing methods of emergency training in Israel Liora Ulitz, Israel - Collaboration between Medical Centers - a model for success in mass disaster training Amir Blumenfeld, Israel - MCE drills, the basic and the advanced	Eli Yaffe, Israel - Emergency Social Application connected to a national EMS Dispatch - Crowdsourcing To Locate Victims In Emergency Situations Rebecca Florsheim, U.S. - Optimizing Global Relief Efforts after Mass Casualty Disasters: Responding to Haiti and Nepal Omlyi Levin, Israel - Automatic Assessment of Personal Coping Strategies from the social media: An Aid for Crisis Communication with the Public Rivka Klein, Israel - Did belonging to a WhatsApp group of women with siblings in active military service contribute to their personal or community resilience? Tomer Simon, Israel - Involvement of emergency responders in spread of rumors on social media during terror attacks Christopher Kramer, U.S. - Effective public communication during crises and emergencies Gleed Shethar, Israel - Effectiveness comparison of two earthquake awareness campaigns in Israel (2011-2013)	Raphael Barishansky, U.S. - Understanding Mobile Integrated Health in the US Michel Debacter, Belgium - SIMEDIS: a discrete event simulation tool for testing the response to mass casualty events Simone Wurster, Germany - Determining the value of public safety solutions: the benefit of early warning apps to protect lives and critical infrastructure Fabio Ravy, Brazil - Hospital Disaster Plan Patricia Andrade, U.S. - Veterinary Medical Schools and Clinics in Mass Casualty Disaster Response: an Additional Source of Medical Personnel, Emergency Equipment and Hospital Surge Capacity	

13:40-14:40 Lunch break						
	Hall 1	Hall 2	Hall 3	Hall 4: Pomegranate	Hall 5: Olive/ Palm/ Sycamore	Hall 6: King Solomon AB
	Technological innovations in emergency management Chairpersons: Isaac Ashkenazi & Joseph Martin	Triage systems and mechanisms during disasters Chairpersons: Michael Halberthal & Leo Latsch	Training Chairpersons: Anna Ofir & Abraham Berger	Promoting population and systems' resilience Chairpersons: Amon Afek & David Abramson	Trauma management + preparedness in specific circumstances & populations Chairpersons: Moshe Michaelson & Richard Klomp	
	Rimona Margalit, Israel - Inhalational therapy of LPS-exposed mice by anti-oxidant and steroid drugs formulated in nano-emulsion liposomes Oren Milstein, Israel - Novel Protection from Radiation Induced Cancer and Infection (ARIS) Mohammad Naeem, U.S. - The Role of Diagnostic Medical Imaging in 4th and 5th Generation Warfare Lilifengna China - The Relation Between the Symptoms Characteristics of Post Traumatic Stress Disorder (PTSD) and the Efficacy of Eye Movement Desensitization and Reprocessing (EMDR) Moris Topaz, Israel - A Novel Damage Control Approach for Soft Tissue Injury Applying Tension Relief System, Vacuum Combined with Wound Oxygenation and Irrigation for Early Primary Closure of Large Wounds	Michel Debacter, Belgium - Does triage decreases mortality in mass casualty incidents? A simulation study of an aircraft crash at Brussels Airport Keli Klein, U.S. - Triage, the next step Brigitte Serreault, France - NORIA solution (New Operational Readable Identification Application) Michael Fogel, U.S. - NYC Pediatric Disaster Coalition: a model for Disaster Preparedness Gary Mann & Donna Thomson, Canada - Life or Limb - Prioritizing priorities	Marcel Van der Auwera, Belgium - Monitoring mental well-being of students during a training course in disaster medicine Hongwei Zhang, China - Chinese regular and military college students need more training to enhance their consciousness of disaster prevention and the disaster rescue skills Dabney Evans, U.S. - Practical training for emergency preparedness among graduate students Deanna Sykes, Canada - Does earthquake training influence willingness to report to work (WRT) among hospital employees (HEs) in an earthquake? Amelia Breyer, U.S. - Emergency Medicine Resident Physician Disaster Preparedness in Anticipation of an Urban Papal Visit	Barbara Lopes Cardozo, U.S. - Promoting resilient primary health care workers in post-conflict Kosovo Daniel Hahn, U.S. - The effect of social capital on an individual's potential resilience Shiri Daniels, Israel - Pass it on - Psycho-social training in the aftermath of typhoon Yolanda in the Philippines Smadar Cooper Caspari, Israel - The efficacy of a structured program using puppetry in kindergarten children living under threat Aviva Goral, Israel - Resource loss, gain and mental distress in individuals exposed to ongoing security related stress Kelly Klein, U.S. - Will they come if there was a radiological or nuclear event	Pia Daniel, U.S. - Exercise Based Management of Blast Injuries vs. General Trauma Injuries by US Emergency Medicine Physicians in Training Arthur Cooper, U.S. - Developing and Implementing Neonatal Disaster Plans through Full Scale Exercises Lior Rosenberger, Israel - The Role of Efficacy, Fear & Specific Enzymatic Debriding Agent (NeoBrid) Liangyao Zhang, China - Motor Vehicle "Trauma-center" facilities in Mainland China Andreas Ruha, Germany - Experiences of fire and rescue team Yaron Shogham, Israel - The role of NeoBrid (Using Personal Protective Equipment Does Not Predict Objective Performance) in the treatment of fire disasters in view of the recent Romanian mass casualty incident	

16:10-16:30 Coffee Break						
16:30-18:00 Plenary: Closing Ceremony Moderated by Col. Dr. Eyal Furman , IPRED IV Chairman Awards for best posters Interactive session: Challenges and Dilemmas in international humanitarian action - Dr. Ian Norton and Prof. Kobi Peleg Presentation of Mass Toxicological Incident Exercise - Col. Dr. Eyal Furman Take home Messages - Col. Dr. Eyal Furman						

Wednesday - January 13th, 2016

07:00-17:00 - Mass Toxicological Incident Drill						
--------------------------------------------------------	--	--	--	--	--	--
